

Products & Services

Lobbying

Our bipartisan lobby teams educate legislators and stakeholders on issues and advocate for policies that are good for our clients and for the states where we do business.

Relationship Development

We can help you develop the right relationships with elected officials before you have a specific challenge to overcome.

Issue Monitoring & Bill Tracking

From bill introduction to the governor's desk, let us track and monitor legislation that will affect how you do business in the future.

Grassroots Advocacy

Through grassroots organizing, we help ensure that lawmakers get stories firsthand about how policies affect the people who elected them.

PAC Management

We do everything from managing the books to making sure you are in full compliance with campaign finance laws for local, state and federal Political Action Committees.

Campaign Contribution Strategy Development

How do you decide to whom and how much to give? We can help you build an effective campaign contribution strategy that forges the right relationships.

Regulatory Process Management

We can help shape regulatory processes and ensure your voice is heard as agencies and decision makers put new laws into motion.

Coalition Building

Often times it takes more than one person or business to make a difference. We can help you build a coalition around an issue so you don't have to go it alone.
